Prakash Kunj is a non-profit, non-governmental, and Non-political Organization established in 2006 by social workers to bring socio-economic change among the poorest of the poor, Literacy, especially among minorities and physically disabled pupils.

Also to bring human dignity & and self-confidence among people through awareness, motivation, education, and training. But nature School children are innocent, hard-working, honest, dedicated & sincere to play their roles & responsibilities. But they are paid significantly less than what they are supposed to be rewarded.

Thus whether it is out or inside the workplace, in the name of development minorities are cheated. They are exploited everywhere. "Hard work in their nature & blood, but injustice is a part of their life".

The organization's members decide to be devoted to serving the poor & and disadvantaged community irrespective of sex, caste, & and creed and to create a new & and just society by empowering the people to be self-reliant through training, capacity building, skill gradation, and other development activities.

Also to develop leadership qualities to bring social change and to create a classless, oppression-free village based on non-violence and universal brotherhood.

Thus the members are dedicated to working for the socio-economic development of the most neglected & and deprived tribal group of Society.

Then the organization was registered under Society Registration Act XXI, 1860 in 2006 bearing registration No-60 under Govt. of Jharkhand

Prakash Kunj serves all the deprived humanity without distinction of race, caste & or religion. Presently the organization is working in and around the rural area of Ranchi District in the state of Jharkhand

The vision of Prakash Kunj

Sustainable and dynamic development of suffering and excluded communities in the periphery.

The fundamental values and strong ladder to move towards the above vision are hunger-free, a just society, equitable sharing among the peoples, and ensuring transparent governance.

MISSION of **Prakash Kunj**

Socio-economic empowerment of tribes, OBCs, and other socially and economically oppressed communities including women, children, and other disadvantaged groups through their capacity building and ensuring provisions meant for them

- To start the process of sustainability leading toward self-reliance using available local resources and identified skills.
- To build up the capacity for the maximum utilization of local skills for its best use to aware people of health, nutrition, and hygiene.
- To start certain need-based income generation programs, especially for the unemployed and vulnerable sectors of society.
- To initiate appropriate and sustainable land and water management practices for the targeted sections of society with the local and traditional perspectives.
- To be aware and empower the community to realize their entitlements, provisions, and other accessibility as per the govt. norms and constitution.
- Prakash Kunj came into existence through people's demand and dedication to change the scenario of the struggling society. The team Prakash Kunj is dedicated to the people of the area and its role has been facilitator apart from a sensible watchman.

The working strategy of the organization

The organization used to select the area after visiting the area & and diagnosis of the problem may depend upon the information collected by way of observation questionnaire, discussion with the local leaders, discussion with the main people, etc. Project formulation is done by the expert of the organization & and participatory Rural Appraisal (PRA) has been adopted for making any decision about the program activities. During the implementation stage, the society used to direct implementation with the help of the community or village committee. Monitoring and evaluation of the progress and impact of the program depend upon the nature of the projects. Our working strategies are based on the following points below here: -

Working with underprivileged and deprived communities' micro-level to understand better critical issues affecting them to address their generic cause.

Clobbering with Government & and various development agencies to recognize & and develop human potential by imparting skills, and development programs for self-reliance. Influencing change agents like media, academics & and the state through advocacy with the usage of communication tools.

Forming strategic alliances with other players, particularly the voluntary sector, Government and corporate houses.

खास बच्चों का जीवन संवार रही शीला

लता राणी ■ रांची

रांची शहर की डिब्रुगढ़ बस्ती में अमी शीला शिक्षा केवल महिलाओं के लिए नहीं, बल्कि पूरे समाज के लिए मिसाल है। उन्होंने अपना जीवन असाधारण और गरीब बच्चों के साथ बिता है। बचपन से ही उनमें समाज के लिए कुछ करने का लक्ष्य था। लेकिन, गरीबी अपनी ही उड़ान में संवार बन कर खड़ी थी। शीला ने हर नयी माँरी और अपनी मंजिल का ही तरीका। अभी वह हरिया के पारदर्शी बोर्ड में 'प्रकाश कुंज' नामक संकलन चला रही हैं। इसमें मददगार और मुक्त-संसार बच्चों को शिक्षा दी जाती है।

कैसे मिली प्रेरणा

शीला उच्च शिक्षा प्राप्त करना चाहती थीं। पर गरीबी राह में रोड़ा थी। अपनी बाली की मित्रि देवरा उन्हें बहुत पुरा लला था। लड़कियों को पढ़ने नहीं दिया जाता था। घर में काम करने और काम बीच करके किसी तरह शीला ने इंटर तक की पढ़ाई की। पर पैसों के अभाव में अपने नहीं पढ़ पायीं। माँ की मुक्त-संसार लड़कियों

शारदा कुमारी से कुछ रहे बच्चों के साथ शीला

एक सोलरी भी मुक्त-संसार की। सोलरी अपनी सारी बने दुनिया में शीला को बकती थी, किसे नहीं समझा जाता था। पर धन शीला के...

समय लोगों के लिए ही गुजर बनता है। उन्होंने अपने लिए रांची की जानी-माने संस्था 'एन-शेड' से विशेष शिक्षा का प्रशिक्षण लिया और शारदा कुमारी से कुछ रहे बच्चों को पढ़ाने लीं।

मिल ही गयी मंजिल

शीला लंबे समय के बाद 1999 में हरिया के पापी नौक में 'प्रकाश कुंज' की स्थापना करने में सफल रहीं। 2010 में उनके संकलन में 45 मुक्त-संसार बच्चों पर रहे थे। अभी 35 बच्चों का पापी के साथ आयोजित करने का प्रशिक्षण ले रहे हैं। शीला के संकलन में अभी पांच शिक्षिका हैं। उन शिक्षिकाओं के परिवार में भी बच्चे न पढ़ पाए-बचिर हैं, किन्तु पढ़ाने के लिए उन्होंने काँच संभाला। बच्चों को आयोजित करने के लिए शिक्षाया, चारुता, मोनली, दीपा, पाप, अपार-बड़ी बचाने और शिक्षा लक्षित के बारे में प्रशिक्षण दिया जाता है। अन्य पापी मुक्त का भी प्रशिक्षण ले रहे हैं। शीला लक्षित शिक्षिका रही हैं। उनके द्वारा

'ईसवर ने मुझे मोका दिया'

ये बच्चों की प्रशिक्षा से जोड़ते हैं। उनसे संभालते हैं। वे अपना करीब 10 दिनों में मुझे उनके लिए कुछ करने का टीका दिया। इन बच्चों को आयोजित करने की मेरा लक्ष्य है। इनसे जाने बचाना है। अभी तो इन बच्चों के लिए बहुत कुछ करना है। मेरे बच्चों बहुत ही प्रशिक्षण ले रहे हैं और इनसे अन्य बच्चों से बहुत बड़ी प्रशिक्षण ले रहे हैं।

OUR APPROACH

Our primary approach is to poverty alleviation through transformational development which is called the 'area survey program' (ASP). Each ASP focuses on a geographical area and covers Disability, the Underprivileged, and Old age & and it is a long-term involvement of a minimum of 10 years, rooted in the community and in partnership with civil society, NGOs, and the Government. We consciously focus on people, groups, and areas in our country that are socio-economically vulnerable. Hence the majority of the ASPs in rural and isolated tribal areas especially focus on the unreached, marginalized, and disadvantaged people.

Major Achievements

- During this year more than 120 families have changed their water-related hygiene behaviors the family members now use to utilize water pots, and hand wash after defecation.
- Children of schools and AWCs have again been targeted under hygiene practices but results have not been found due to its closure.
- 3 water sources have been renovated for safe drinking water in the operational areas under Ranchi district whereas 12 platforms and others were also repaired in the area for access to the community on safe drinking water.
- Construction of nearly 110 compost Pits to train the villagers in the method of decomposition of organic waste material and convert it into usable fertilizer to promote vegetable production in rural areas ensuring health and economic sustainability.
- To conserve the rainwater and to mitigate the drought situation 2 water harvesting tanks have been renovated through the gram sabha under PK. It is expected to cover, more than 100 acres of land that have been irrigated to protect the paddy crop from drought

Consumer Awareness

Our NGO has been working towards consumer awareness for the past year, and we are pleased to share our annual report on the activities we conducted.

Activities:

Conducted workshops: We organized several workshops for consumers to educate them about their rights and how to exercise them. These workshops covered a range of topics, including consumer protection laws, fair trade practices, and product labeling.

Created informative materials: We developed various informational materials such as pamphlets, posters, and brochures that explain various consumer rights and laws. We also created short videos for social media platforms, which reached a wider audience.

Collaboration with local businesses: We collaborated with local businesses to promote fair trade practices and consumer protection. We held meetings with local business owners to educate them about the importance of fair trade practices and how they can benefit both consumers and businesses.

Complaint redressal: We set up a consumer complaint redressal system to assist consumers in filing complaints and getting them resolved. We provided support to consumers who faced issues with products or services, and we worked towards resolving these complaints through mediation or legal means.

Advocacy and policy work: We engaged in advocacy and policy work to promote consumer protection laws and practices. We worked with lawmakers and government agencies to raise awareness about consumer protection laws and to push for stronger regulations that benefit consumers.

Conclusion:

Our consumer awareness program has been successful in promoting consumer protection and fair trade practices. We will continue to work towards these goals and hope to see an even greater impact in the years to come. We thank all our partners and supporters who have made this program possible.

Impact:

Our consumer awareness program has had a significant impact on the community. Through our workshops and educational materials, we were able to reach a large number of consumers and raise awareness about their rights. Our consumer complaint redressal system helped many consumers get their issues resolved quickly, and our collaboration with local businesses has led to the adoption of fair trade practices in the community.

Women Empowerment Programmed

The women empowerment program by our organization aims to promote gender equality and empower women in various aspects of life. Our program aims to provide women with equal opportunities, enabling them to lead a dignified and fulfilling life.

Advocacy and Awareness Campaigns:

We engaged in advocacy and awareness campaigns to promote gender equality and women's rights. We organized marches and rallies to create awareness about women's issues such as gender-based violence, women's safety, and equal pay for equal work.

Legal Assistance:

We provided legal assistance to women who faced any kind of discrimination, harassment, or abuse. We also organized legal awareness programs to educate women about their legal rights and how to access legal aid.

Women's Self-Help Groups:

We facilitated the formation of women's self-help groups, enabling them to work together and become self-reliant. These groups were provided with financial assistance, training, and mentoring to start small businesses and become economically empowered.

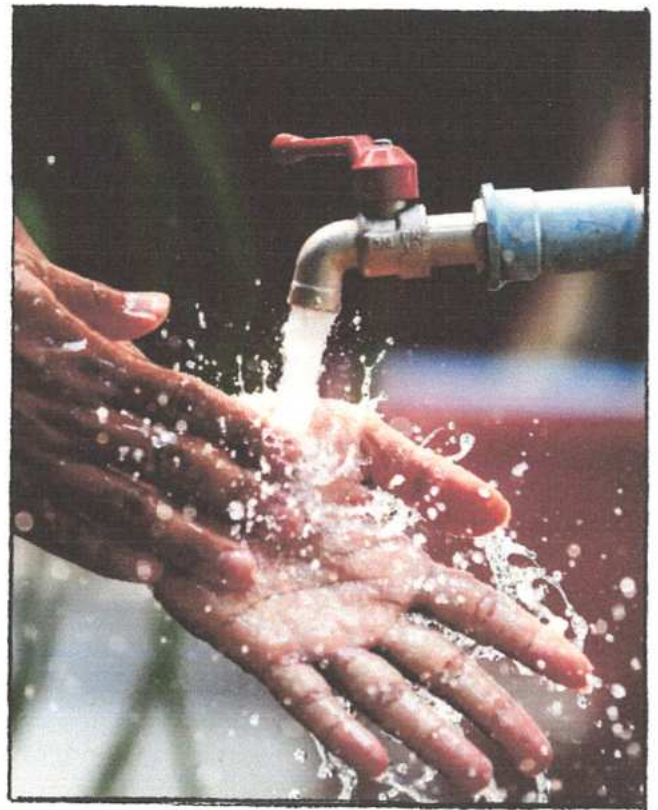

Water, Sanitation, And Hygiene

This year major actions were carried out on strengthening WASH in the PK communities.

In this regard, 32 water sources have been renovated to ensure safe drinking water for the PK communities. More than 200 families have adopted hygiene practices in the communities.

Community women and adolescents of them also initiated proper menstrual hygiene behaviors. This

hygiene and sanitation and related changes in behavior resulted in decreased disease incidence in the community. The community also prepared soak pits, and garbage pits and also initiated the proper use of the drained water used in the kitchen garden

Rural Development

Our team and volunteers organized health check-up camps for poor old people.

In order to fulfill the basic needs of the rural people, public toilets were made and the importance of cleanliness was explained to them.

Numerous activities were implemented in the field of agriculture including the use of organic fertilizers.

Various trees were planted and its importance was explained to the people

Mask Production During the "COVID-19"

During the COVID-19 Pandemic, mask production was done by the Self Help Groups. 5000 masks were produced by the SHG to help the local community. SHG's members started production through two machines with the support and direction of "Prakash Kunj". With the production of masks, SHG's members and their families also gained economic stability during the pandemic economic crisis.

Relief Activities During "COVID-19"

Prakash Kunj has conducted Awareness Programs in Rural areas such as Ranchi blocks and Urban areas to maintain "Social-Distancing" and follow the guidelines given by the government such as wearing masks and sanitizing their hands at regular intervals. We also conducted Cleanliness Awareness Programs among the people of Society. Distribution of Dry Ration, Masks, and Sanitizers was done by the volunteers Of our NGO. We have inspired and made people aware of the benefits and Importance of taking Vaccines. Our Volunteers made the way easier for people To reach their nearest vaccination centers. Our NGO also helped out Migrant Workers to reach their destination safely.

Introduction:

Our NGO has been working towards promoting and preserving art and culture for the past year, and we are pleased to share our annual report on the activities we conducted.

Activities:

Cultural festivals: We organized several cultural festivals to showcase the art and culture of various communities. These festivals featured music, dance, art exhibitions, and traditional crafts.

Workshops and training: We conducted workshops and training sessions for local artists and artisans to develop their skills and learn new techniques. We also provided support to young artists and helped them exhibit their work in local galleries and exhibitions.

Heritage conservation: We worked towards preserving heritage sites and buildings of historical significance. We organized heritage walks and conducted awareness campaigns to raise awareness about the importance of preserving these sites.

Art education: We developed art education programs for children and young adults. These programs provided opportunities for children to learn about different art forms and express their creativity.

Community engagement: We engaged with the community through various outreach activities such as street performances, art installations, and cultural events. We worked towards promoting cultural exchange and understanding among different communities.

Impact:

Our art and culture program has had a significant impact on the community. Our cultural festivals provided a platform for local artists and artisans to showcase their work, and our workshops and training sessions helped them develop their skills and techniques. Our heritage conservation efforts helped raise awareness about the importance of preserving historical sites, and our art education programs provide opportunities for children to learn and express themselves creatively. Our community engagement activities helped promote cultural exchange and understanding among different communities.

Conclusion:

Our art and culture program has been successful in promoting and preserving art and culture in the community. We will continue to work towards these goals and hope to see an even greater impact in the years to come. We thank all our partners and supporters who have made this program possible.

Health Camp

Prakash Kunj has conducted regular health education camps in most of the target villages by involving the local health personnel of the Govt. department. As a result, regular health checkups of children under 0-5 and pregnant mothers got iron and folic acid as well as immunization during the Pulse Polio vaccination campaign. The target area of the Prakash Kunj is malaria-prone.

The people are required to adopt blood tests on the occasion of any sort of illness.

Now, it has been possible as a result of their awareness in the field of health care. Complement the Public health services by organizing health camps in the intervention area where the reach of government services is still poor. Increase awareness of the community on health care practices and disease prevention with the help of counseling by doctors and health personnel. We have organized 2 health camps during the year in two areas of our working field. We have organized those camps with the collaboration of the government health department i.e. PK Mobile health unit, ANMs, etc.

Environmental Awareness

Camp

Prakash Kunj took an active part in the Environmental Awareness Program. Sustainable Livelihood of Poor Peoples through Awareness Generation about Promotion of village forest in Ranchi District. Prakash Kunj has the pleasure of participating in the environmental theme for the year "Sustainable Livelihood from Forest. Padyatra, workshop on the music and Plantation of Medicinal Plants, Adoption of the plantation at large scale by each individual, Protection of forest in the surrounding village, and Promotion of organic manures held under the programmed activities. Coverage of 5 villages of Ranchi district was done.

Agriculture Training

A Village level training has been organized in Ranchi District. In this meeting discussion on sustainable agriculture and SR9 technology i.e. seed processing & preserving, benefits of organic fertilizer, preparation & use of organic fertilizer, use of organic pesticides, and the difference between SR9 and traditional farming had been discussed with the participants. As far as the outcome concerned is the villager's enhanced knowledge regarding agriculture promotion and SR9 technology. They also know the difference between SR9 and traditional farming. In this regard, the Prakash Kunj has expertise in SR9 technology for sustainable agriculture, and to meet food scarcity. As we all know that this technology is proven its specialty in low-cost and high-productivity technology of agriculture, so keeping in mind the livelihood development of the poor people in the targeted area, we have organized one-day training on "System of Rice Intensification (SR9)" in the targeted area, where a total number of 156 farmers participated. Out of the total 156 participants, 115 farmers agreed to adopt the SR9 method this year for the cultivation.

Road Safety Awareness Campaign

"It is necessary that everyone should follow traffic rules. All those rebels who don't care to follow the rules are in constant danger. It is our moral duty to follow road safety rules",

Our organization also gave information about the "motor vehicle act and Traffic Rules" and also said that the best way to keep others and yourself safe is to follow proper traffic rules. Whenever you drive a car follow the traffic rules, it is important to wear a helmet while driving a two-wheeler and obey the traffic lights to avoid accidents. One should always wear a seat belt while driving a car. Avoid rash driving as fast speed is the core reason for accidents.

Always carry all the paper in the vehicle.

To improve the traffic in the city, the team of traffic police gave their WhatsApp number and helpline number and also said if anyone breaks the traffic rules just make a video and send it to them.

The road safety program by our NGO has been actively working towards promoting road safety and reducing accidents on the road. Our program aims to educate and raise awareness among people about safe driving practices and encourage them to follow road safety rules and regulations.

Activities and Work Performed:

During the past year, we have conducted various activities and programs to achieve our mission:

Road Safety Awareness Campaigns:

We organized road safety awareness campaigns in different parts of the city, reaching out to thousands of people. We utilized different mediums such as social media, hoardings, and banners to create awareness about safe driving practices.

Workshops and Training Programs:

We conducted several workshops and training programs for drivers, school students, and other members of the community. These programs aimed to educate people about traffic rules and regulations, the importance of wearing seatbelts and helmets, and defensive driving techniques.

Advocacy and Lobbying:

We engaged in advocacy and lobbying efforts to influence policy changes to promote road safety. We actively participated in discussions with local authorities, suggesting measures such as installing speed breakers and traffic signals in accident-prone areas.

Distribution of Road Safety Kits:

We distributed road safety kits to drivers and pedestrians, which included reflective jackets, helmets, and first-aid kits. These kits are aimed to promote safety and reduce the risk of accidents and injuries.

Road Safety Clubs:

We created road safety clubs in schools and colleges, encouraging young people to become advocates for road safety. These clubs organized events, such as poster-making competitions and quizzes, to promote road safety awareness among students.

Conclusion:

In conclusion, we are proud of the work performed by our road safety program in the past year. We hope to continue our efforts towards promoting road safety and reducing accidents on the road in the future.

Annual Activities Report on Tribal and Minorities Welfare Program by Non-Profit Organization

Introduction:

Our non-profit organization has been working towards tribal and minority welfare for the past year, and we are pleased to share our annual report on the activities we conducted.

Activities:

1. **Education and Skill Development:** We provided education and skill development programs for tribal and minority children to improve their chances of getting better employment opportunities. We also provided scholarships and financial assistance to children who were unable to afford education.
2. **Healthcare:** We organized health camps and provided healthcare services to tribal and minority communities in remote areas. We also conducted awareness programs on health and hygiene and distributed medicines and medical supplies to those in need.
3. **Livelihood Support:** We provided livelihood support to tribal and minority communities by organizing training programs on agriculture, animal husbandry, and other allied activities. We also provided financial assistance and loans to enable them to start their own small businesses.
4. **Empowerment:** We organized workshops and training programs to empower tribal and minority women and help them become financially independent. We also provided legal assistance to women who were facing discrimination or violence.
5. **Advocacy and policy work:** We engaged in advocacy and policy work to promote the welfare of tribal and minority communities. We worked with lawmakers and government agencies to raise awareness about their issues and push for stronger regulations that benefit these communities.

Impact:

Our tribal and minority welfare program has had a significant impact on the community. We were able to provide education and skill development opportunities to many children, and our healthcare services helped improve the health and well-being of many tribal and minority communities. Our livelihood support programs helped many individuals become financially independent, and our empowerment programs helped women become more self-reliant. Our advocacy and policy work has also led to positive changes in policies and regulations that benefit these communities.

Conclusion:

Our tribal and minority welfare program has been successful in promoting the welfare of these communities. We will continue to work towards these goals and hope to see an even greater impact in the years to come. We thank all our partners and supporters who have made this program possible.

School Education Activities

We did this School education activities training program with 3 schools, which included 800 students, in which we increase their learning and concentration power of their mind. They also gained many ideas on how to focus on their study in a perfect manner. The need of the hour is that elementary education should be universalized, secondary education should be vocationalized and higher education should be expanded. Discussion on the universalization of elementary education had been a talk of policymakers even before independence. However, the Britishers kept the policy deliberately postponing it. In this regard, Mahatma Gandhi framed his policy of Basic Education in 1937 and drew a plan to educate all the students. This can be said to be the first proper scheme towards its universalization. Though many plans had been made to implement this scheme, special concentrated efforts were made after independence only.

Vocational Training Program

We did this local training program with 950 people, which included 240 students and 710 people, in which we got students and people enrolled in the industry in Ranchi City. Vocational Education is based on occupation and employment and it is the need of the hour for every country to have a strong vocational education system. It can be defined as skilled-based education. Vocational Education helps in Economic growth. The Indian education system recognizes the role of education and particularly Vocational Education. National Council for Vocational Training, an advisory body, was set up by the Government of India plays an important role in the implementation of Vocational Education in India. Although there are lots many areas in which India is facing problems in Vocational Education Implementation. This article throws light upon the scope, problem areas, and government's role in Vocational Education Implementation.

ST/SC & Minorities Awareness Program

We organized ST/SC and Minority Program in 16 villages with 7000 people, which includes all villages. People here were very happy and participated in this program in the Ranchi district. India is a welfare State, committed to the welfare and development of its people and of vulnerable sections in particular. Socially disadvantaged groups of SC/ ST have received special focus over the years for their social and economic advancement. The government has taken several steps for formulating appropriate policies needed to design and implement various welfare programs for achieving the objective of creating a favorable environment to ensure speedy socio-economic development of SC/ ST's.

The Secretary. Statement

Dear esteemed members of our NGO,

It brings me great joy to share with you the achievements of our organization in the past year. Together, we have worked tirelessly towards our goal of creating a positive impact in the lives of those in need, and I am proud to say that we have made significant progress towards achieving this goal.

One of our major achievements this year was our successful educational & and social awareness campaign, which allowed us to provide aid and support to communities affected by conflict, and poverty. Through our collective efforts, we were able to provide Education, food, shelter, medical assistance, and education to those in need, and help them rebuild their lives.

We also launched several initiatives focused on empowering women and children. These initiatives provided education and training opportunities to young girls and helped women develop skills and knowledge to support their families and communities. We believe that empowering women is key to creating sustainable change, and we are committed to continuing this work.

Additionally, we collaborated with local authorities and organizations to address issues related to health, sanitation, and access to clean water. By working together, we were able to bring positive change to communities and improve the quality of life for those in need.

Finally, we organized several awareness-raising campaigns to address social issues such as gender inequality, discrimination, and child abuse & and on Road Safety awareness program. Through these campaigns, we were able to raise public awareness and encourage people to take action toward creating a more just and equal society. I am grateful for the hard work, dedication, and commitment of every one of you. Together, we have achieved a lot, but there is still much work to be done. Let us continue to work towards our mission of creating positive change, and making a difference in the lives of those who need it most.

Thank you.

Sincerely,

[Shila Linda]

Words From the President

Dear members of our NGO,

As the president of our organization, I am pleased to share with you the details of our annual activities for the past year. We have been working diligently to achieve our goals, and I am proud to say that we have made significant progress in our efforts to create a positive impact in the lives of those in need.

In the past year, we have organized several activities to support our mission. We began the year by conducting a needs assessment in various communities to identify areas where our help was needed the most. This helped us to prioritize our activities and ensure that we were targeting the most pressing issues. We organized several fundraising campaigns to support our projects, including our Tribals, Minorities, and education initiatives. Our campaigns were successful, and we were able to raise significant funds that enabled us to provide essential aid and support to communities affected by disasters, conflict, and poverty.

We also launched several initiatives aimed at empowering women and children. These initiatives provided education and training opportunities to young girls and helped women develop skills and knowledge to support their families and communities. We believe that empowering women is key to creating sustainable change, and we are committed to continuing this work.

In addition, we collaborated with local authorities and organizations to address issues related to health, sanitation, and access to clean water. Our efforts led to the construction of several water wells, the provision of sanitation facilities, and the distribution of medical supplies to those in need.

We also conducted several awareness-raising campaigns to address social issues such as livelihood programs and skill development with vocational training. Through these campaigns, we were able to raise public awareness and encourage people to take action toward creating a more just and equal society.

Finally, we organized several capacity-building workshops and training sessions for our school staff and volunteers to improve their skills and knowledge in various areas. This helped us to strengthen our organizational capacity and ensure that we were delivering high-quality services to those in need.

I am proud of what we have achieved so far, and I am grateful for the dedication and hard work of our team. I look forward to continuing our work in the coming year and making an even greater impact on the lives of those who need it most.

Sincerely,

[Umase Gupta]

from the desk of the Treasurer

Dear members of our NGO,

As the treasurer of our organization, I am pleased to provide you with the details of our annual financial activities for the past year. Our organization is committed to transparency and accountability, and I hope that this report will provide you with a clear understanding of how we have utilized our resources to achieve our mission.

In the past year, we received small donations and grants. These funds were used to support our various projects and initiatives aimed at creating a positive impact in the lives of those in need.

Our largest expenditure was on our education initiatives and social activities. These initiatives required significant funding, but we were able to provide essential aid and support to communities affected by natural disasters, conflict, and poverty. We also invested heavily in our initiatives aimed at empowering women and children, including education and training programs.

We spent a significant amount on collaboration with local authorities and organizations to address issues related to health, sanitation, and access to clean water. This led to the construction of several water wells, the provision of sanitation facilities, and the distribution of medical supplies to those in need.

We also conducted several awareness-raising campaigns to address social issues such as gender inequality, discrimination, and child abuse. These campaigns required a significant investment of resources, but we believe that raising public awareness is crucial to creating positive change.

Our organizational expenses, such as salaries, office rent, and utilities, were kept to a minimum to ensure that we were maximizing our resources and using them effectively.

Overall, we were able to manage our resources effectively, and our financial activities were in line with our mission and objectives. We believe that transparency and accountability are crucial to our organization's success, and we are committed to continuing to provide detailed financial reports to our members.

If you have any questions or concerns regarding our financial activities, please do not hesitate to contact me.

Sincerely,
